

REPUBLIC OF IRAQ

Pre-import inspection ICIQI PROGRAMME

The Central Organization for Standardization and Quality Control (COSQC) has appointed Baltic Control for verification of the conformity of products before shipment to Iraq.

The VOC programme starts in January 2013.

OBJECTIVES:

- 1 Consumer and environment protection
- 2 Conformity assurance
- 3 Faster release of goods at Iraqi Customs offices at the Iraqi borders and the entry points

PROCESS:

The exporter lodges a request for verification with the Baltic Control offices according to the contact details stated later in this document. This request should include:

- Pro forma invoice / final invoice / packing list / name and contact of the importer and exporter
- Conformity documents or test reports that comply with the Iraqi standards
- Certificates related to the management of quality / safety system
- Information related to the location and provisional date for the goods for the performance of physical inspection of goods before shipment

BALTIC CONTROL TEAM MISSION

- 1 Baltic Control reviews the information and the documents provided
- 2 Contact the customers to coordinate with them regarding physical inspection. If necessary, samples are taken, and laboratory testing/analysis is carried out in accredited labs
- 3 Baltic Control verifies consistency and accuracy of data collected during the verification process. Upon satisfactory result and receipt of the final invoice and a transport document, a secured Certificate of Conformity (COC) is prepared, which is accepted by customs employees at the Iraqi border and the entry points

VERIFICATION AT DESTINATION

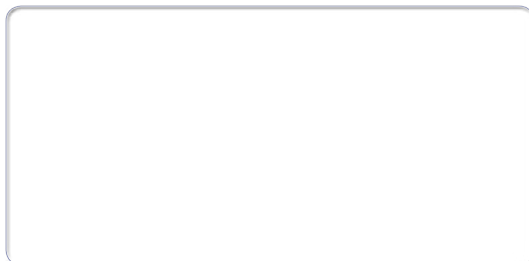

Verification will be performed at destination by a Baltic Control team when the goods reach the Iraqi border and the entry points. Visual inspection of the condition of the shipment and goods packages whenever Customs open a consignment.
